Rings

Reading the map

Ancestry runs outwards from Chaos, one ring per generation. Stacked cards are collectives.

Each box takes its group's colour. An outline in a parent's group colour surrounds that parent's children. Where two outlines overlap, the figures inside share both parents. Zeus, for example, sits where Cronus's outline (Earth & sky) overlaps Rhea's (Olympians).

Leto, Maia, Metis, Semele and Clymene have no recorded parents here, so each sits in the same ring as their partner.

*Nereus is also the father of the Nereids, with Doris. Only Doris's region is drawn.
